Q: What happens to all the money?

- The Millionaires Network is a business entity. We provide membership services in return for a yearly subscription fee. As with any business entity we have business costs and expenses in order to provide these services including intellectual property and ongoing support.

Q: Why is there a maximum of one million members?

- Our mission is to create a global online network of ONE million Millionaires.

Q: What happens when I am awarded the £1,000,000.00?

- You will be notified by e-mail and phone. Your name will also be posted on the blog. We will either present you with a cheque in person or pay the amount into your nominated bank account. You will be responsible for paying any taxes or fees in your respective country.
- You are also expected to remain a lifetime paid member. This will be a fixed membership fee based on your current year. You can no longer receive votes; however you are still entitled to ONE vote each year. Now that you have become a Millionaire you now continue helping other members become Millionaires.

Q: Why is the membership fee in GBP currency?

- If the currency was USD, members living in the UK would not receive one million dollars. So the GBP was chosen to ensure that every member would receive at least one million dollars.

Q: Do you have to be a Millionaire to join?

- No. We are a private online network for business owners and entrepreneurs who want to be Millionaires by working together to help each other.

Q: What makes your network different from LinkedIn or Facebook?

- Firstly, we are a private network so any communication, deals, JV's, business, promotions etc are for members only and are not available to the general public.
- Secondly, I have used a lot of networks that are currently out there and have found limited results. I joined LinkedIn to grow my businesses. However being a professional network it seems more like a place to be head hunted and offered jobs or people looking for work. I am not complaining because it's free. We are a business network for business owners and entrepreneurs.
- Thirdly, our niche; are people who want to become Millionaires. They are like-minded in their aspirations.
- Finally, everyone who joins buys into our vision of creating a global online network of ONE million Millionaires. Every member wants to work together to help each other. We incentivise this and encourage our members to connect, work and support each other by offering the voting. So you can vote for the one member who you feel has added the most value to you.

Q: A member joins the Network are they expected to receive reasonable advice on becoming a millionaire?

- I upgraded my LinkedIn account from free to an Executive Account for a little under \$80 per month and my expectations have not been met. I signed up with our local Chamber of Commerce \$400+GST for the year again my expectations have not been met. Will I be renewing my subscriptions for these networks? Probably not. Does it mean they don't work? No, they just don't work for me. How many businesses have tried Facebook advertising and spent \$1000s every month to find their expectations are not met?
- The Millionaires Network is not about giving people reasonable advice on becoming a Millionaire. It is a private business network for business owners and entrepreneurs who want to network and help each other become Millionaires. Many of the member's are successful business owners wanting to connect with like minded people to take their business off shore. Other member's have a great idea and are looking for people to work with on the project. Then there are members who are working full time and want to make the leap of faith to start their own business. The point I am trying to make is many members will become Millionaires in their own right. They have the product / service and are just looking for that break through for their business or idea.
- We create a positive and supportive environment to foster and clear the way for these people.
- "When you surround yourself with successful people, you attract success to yourself". I am a true believer of this, the law of attraction.
- At the end of the day it costs £2.99 for 12 months membership and for me it's a no brainer.

Q: Why did you setup The Millionaires Network?

- You name the Network, I have joined it. Apart from Women Only networks, I tried but was declined. I just couldn't find the right environment to grow my business. Yes, I have limited success with them but for the amount of money it costs and the time you put in, the benefits did not outweigh the costs.
- What ever is out there is not working. I have my goals and that is to provide opportunities. I have family and friends in the same situation I see light for them because of what I have. Once there, I will be in a better position to put in place systems to help them, so being part of something like The Millionaires Network is for me to help more people across the world.
- When you put something out there which is new and challenges the status quo you expect criticism and I use this to make what I have created better.
- I am an entrepreneur and a leader, this is what I do, I look for opportunities to grow, to be better than I am now; I am a life long learner.
- Granted this is no easy feat to create Millionaires, but I am willing and committed to achieve it. I don't do easy; I welcome challenges and take them head on. Many of the world's successes have been achieved this way, through self determination to succeed when everything is against you.
