

STEP 4: CONNECT WITH MEMBERS

▪ TASK 1 – VIDEO CALLING MEMBERS

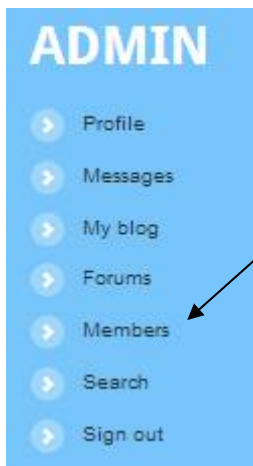

We encourage you to meet every member face to face.

This is a very important success factor of business networking. You can make contact with members any way you wish, phone, e-mail, text or private message.

However, with video conferencing and video calling becoming more common it's a great way to utilise your time.

Your aim is to be video calling at least 1 x member each week. That's 52 members in a year. The total membership of The Millionaires Network is 1,000,000 members. The more members you can meet, the more successful your business will be.
